An Ideal Spot

Editor, Torrance Herald:
"When a man's ways please the Lord, He maketh even his enemies to be at peace with him."

The above quote from a letter signed David Calderwood, 7th D. (8/20/59) cast a new light on Mayor Albert Isen. His ways must please the Lord, as he has shown a willingness to work for peace with his enemies. He has shown a true faith in God, our County AND our City by not being afraid to call to the attention of the State Department that Torrance is an ideal spot to show what is developed in a Christian country through free enterprise under the capitalistic system of America.

I trust the good clergyman has more faith and confidence in Christianity than the balance of his letter indicated.

I know our city officials believe more completely in the American Way than to really think that our city could be corrupted by a flying visit (12 days for the entire U.S.) from the head of the Russian State, with all of his unwholesomeness.

Thanks, Mayor, for your belief in our city, its institutions and its PEOPLE.

HERMA TILLIM

A Tomato Halo?

Editor, Torrance Herald:
Mr. Krushchev would love nothing more than to wear a halo of rotten tomatoes as he tours our countryside. It is not inconceivable that at this moment his cohorts are arranging for demonstrations against him.

Ridiculous thought? No, it is communistic psychology, pure and simple. Our open hostility would make wonderful grist for the Communist propaganda mills.

For Krushchev's visit all of us are being asked to do something usually reserved for the diplomatic corps.

MELON COUNTRY

Majority of watermelons are grown in Florida, California, Georgia, Texas, South Carolina, Missouri, Arizona and in parts of Louisiana.

We are being asked to hide our personal repugnance for all that he represents and to show only the strength of our own convictions in that which we represent.

A vote of confidence to the mayor of Torrance, whose pride in his community and grasp of the psychological principles of the cold war prompted him to extend the invitation along with many other patriotic Americans.

MR. & MRS. RICHARD H. GERALD
2703 W. 180th Place
Torrance, Calif.

Legion Activities

Editor, Torrance Herald:
We wish to take this opportunity to express our sincere thanks to you for the kindness you have extended to our Post. It is our aim, through your paper, to let the Community know just what our activities consist of, and personally invite them to participate in any or all that are open to the public. With the co-operation you are giving us we feel this can be accomplished.

We are deeply indebted to you for any space you can allot to us each week.

ED J. LOEHNIS,
Commander.

Direct Benefits

Editor, Torrance Herald:
All summer the Torrance Herald has been helping our recreation program immensely with its excellent coverage of department events. We will never be able to thank you enough for this support. We know for a fact that many people have joined our programs only after first reading about them in your newspaper.

But, even more, I have been particularly enjoying the fine publicity we have gained through your "Penny for Your Thoughts" column. The column has been of direct benefit to the Department on occasions, and I have heard many favorable comments concerning the questions and answers given.

Your continued interest in our programs for the residents is gratifying.

HARRY B. VAN BELLEHEM
Director of Recreation.

Missile Creativeness Brings New Industrial Potential to Area

Art or science, missile creativeness in the space-atomic age has brought greater industrial potential to the Southwest L.A. district and promises limitless opportunities for scientific achievement here for the future.

Thus spoke John Berthelet, of Space Technology Labs, a Division of the Ramo-Woolbridge Corp., before members of the Rolling Hills Toastmaster Club at its meeting last week. The club meets Wednesday nights at the Smith Bros. restaurant at 4020 Pacific Coast Hwy.

Berthelet's brilliant speech won him the club's coveted trophy for the best address of the evening. Toastmaster Chuck Van Arman, presiding for the program, commended Berthelet for the significance and timeliness of his comments, and stated the victory was the greater for the marked competition he faced from two other notable Toastmasters, Bill Clemenger and Jack Tallon.

The audience, composed of educators and young executives of the Torrance-Redondo Beach-Palos Verdes-Rolling Hills areas, heard Mr. Berthelet stress the remarkable con-

tributions made in this area to space age achievement. He emphasized the importance of the rapidly developing program of Systems Engineering "now taking place right in our own back yard."

"The great Southwest area of Los Angeles County, in which we live and work, is now undergoing a transition to virtual metropolitan industrial status," declared Mr. Berthelet, who is a member of the administrative staff of Space Technology Labs.

"The space age has brought with it some fascinating and startling concepts, together

with some fantastic problems to be solved," Mr. Berthelet continued. "Several new areas of emphasis in the broad field of engineering have been brought to light. One of the most significant and valuable is Systems Engineering. We will doubtless hear much more of this in the months and years to come in this very region."

The successful development of a new guided missile system, the speaker pointed out, is strongly and increasingly dependent on the practice of the Systems Engineering art. Systems Engineering, Mr. Berthelet explained, is the co-

Signal Approved for Crenshaw and Lomita

Approval of an agreement covering the installation and maintenance of a traffic signal system and highway safety lighting at the intersection of Crenshaw Boulevard and Lomita Boulevard in Torrance was announced today by Supervisor Burton W. Chace.

Under the agreement, the County's share for the installation will be 75 per cent or an estimated \$10,500. This is based on the ratio of the number of approaches to the intersection which are under County jurisdiction, Chace said.

SIT or STAND
All-Steel IRONING TABLE

\$4.95

Full Steel Full Quality! Sensational Low Price!

At last, a full-size, all-steel, ironing table for stand-up or sit-down ironing at the usual price you'd pay for a non-adjustable! Cannot collapse accidentally. Braided legs with rubber feet prevent creeping or crawling. Plenty of space for knees. Faster ironing because moisture escapes quickly through hundreds of holes.
